

# PABLO P. TORRES

## Web Developer & Full-Stack Software Engineer

Detail-oriented Computer Science senior specializing in web development and full-stack software systems. Experienced in end-to-end development workflows from relational database modeling and backend API design to modern web frontends and version control. Proven lead on capstone software engineering projects, combining technical problem-solving with effective team collaboration and AI-driven system implementations.

# Work Experience

**Lead Full-Stack Software Engineer**
Campus Capstone Project
August 2025 – Present

Led a 5-member engineering team through the full SDLC to design and build an AI-powered web platform.

**IT Support Assistant**
Bank of America
June 2020 – August 2020

Provided technical support and system troubleshooting for enterprise IT infrastructure within a high-security financial environment.

# Education

**California State University, Northridge, August 2022 – Present**
B.S. Computer Science Candidate
Specializing in full-stack web engineering, RESTful API architecture, and database design. Experienced in building production-grade web applications using Python, JavaScript, and MySQL, with a focus on AI feature integration and team project leadership.

**Arleta High School, Los Angeles, CA. Graduated: June 2022**
High School Diploma

Valedictorian.
